### COMEDIAN KEEPS COURT IN UPROAR IN ASSAULT CASE

Frank Tinney Maintains Folies Beauty Threatened To Use Ice Pick

#### DISPLAYS BRUISES

Says Beauty Knicked Down Door and Moved Trunk In Apartment

(By the Associated Press)

NEW YORK, June 12.—Frank Tinney, black face comedian, was today bound over to the grand jury on a charge of assault brought against him by Imogene Wilson, a Folies girl.

The comedian, who couldn't help being funny even when faced in the court on a charge of having beaten and seriously injuring Miss Wilson, yesterday kept the court in an uproar of laughter. The crowd even thought it was funny when he was held under \$2,500 bond.

He declared that he had been obliged to use force to prevent the actress from using an ice pick on him and the crowd laughed. He displayed to the court a series of bruises on his shins which he said Miss Wilson had placed there and the crowd laughed again.

"She knocked down the door and moved in her trunk," he said in referring to the apartment where the assault is alleged to have been made.

But the biggest laugh came when Tinney's attorney requested Miss Wilson to reciprocate and display her bruises. Magistrate Levine was forced to threaten to clear the court room before he could restore order. Miss Wilson refused.

The magistrate in holding Tinney for the grand jury stated that "Broadway is on trial," and that all concerned in the case should be given an opportunity to settle it in a higher court.

### KIWANIANS JOURNEY TO COUNTY RESORT

Members of the Kiwanis club and their families with other Ada residents staged the informal opening of the Byrds Mill Kiwanian park at Byrds Mill springs today when they motored to the park site for a picnic and dedication of the park.

The park, which is being beautified under the leadership of Christian Jensen of the Oklahoma A. and M. college, an expert landscape gardener, is boomed as one of the beauty spots of Oklahoma and is being prepared to receive a horde of motorists this summer.

Sponsored by the Kiwanis club of Ada, the picnic today is intended to be a meeting of public spirited Ada people who are interested in promoting a park for recreation on Sundays and holidays.

At the picnic today, Kiwanians and their guests will clear away underbrush and dedicate the place to the rush of motorists during the hot summer months.

### French Political Condition Takes On New Attitude

(By the Associated Press)

PARIS, June 12.—The election of a new president of France to succeed M. Millerand, who resigned yesterday, assumed new complications as a result of a threat made last night by M. Herriot, leader of the majority of the left, that he would not form a cabinet under a president elected by a majority including Conservatives and Moderates.

The election takes place tomorrow at Versailles and it was forecast that M. Panleve, president of the chamber of deputies, would be chosen as chief executive. The exclusion from the general caucus today to a group of 100 Union Republican senators including such men as former President Poincare, caused a new element of controversy and made the position of M. Panleve more uncertain.

(By the Associated Press)

GALESBURG, Ill., June 12.—Damage estimated at nearly \$1,000,000 was caused by a tornado and hail storm in this section early today. Considerable livestock was reported killed.

### "DARK HORSE" FOR NOMINATION USES ORANGE PLATFORM

Charles G. Chapman.

Charles G. Chapman, wealthy California fruit grower, one of scores of "dark horses" mentioned for the vice presidential nomination at the G. O. P. convention in Cleveland. He took 20,000 oranges along with him to pass out to delegates and visitors.

### TIGERT TO TALK ON SCHOOL EVILS

Education Commissioner Is Strong Believer in Assisting Rural Schools

Dr. John J. Tigert, United States Commissioner of Education, will be in Ada Friday and will deliver an address at the College at 10 o'clock. The public is invited to hear this, or at least as many as can get in the auditorium. Dr. Tigert, though a comparatively young man, is making a reputation for industry and results in the department.

The outstanding educational problem in America today, according to the Commissioner, is the rural school. Nearly one-half of our children are still receiving their education in one-room rural schools, without proper educational equipment, and often with inexperienced teachers. So long as this condition exists, so long with the country child be penalized in its struggle for existence.

Democracy, if it means anything, means that every boy and girl, whether living in the city or in the country, should have equal opportunity for that kind and degree of education that will best fit him or her for the most successful living and the highest type of citizenship. We cannot pretend that we have in any way nearly reached this ideal so long as the country child receives the inferior educational training which the one-room one-teacher school affords. This problem, however, is being squarely faced in several of the state, and in some of the consolidated schools is offering the child in the country educational opportunities easily comparable with those which the city child has. During his travels, the commissioner has visited consolidated schools out in the open country which any city would be proud of. Most of these, however, are located in the more wealthy counties of a state, while the poorer counties are still struggling with the antiquated one-room school. In one state the commissioner visited he saw several consolidated schools which would be a credit to any city, but he was told that if he had gone to a nearby county in the same state, he would have found the educational conditions quite deplorable. The rural problems will not be finally solved until some means are found of more nearly equalizing the school burden so that it will fall unduly upon the poorer communities.

Commissioner Tigert is a firm believer in the future of the motion picture as an aid to education. There has so far been a difficulty in getting the right kind of film, but it seems that this will soon be overcome and the motion picture will become an integral part of the school curriculum. Its value as an aid in teaching geography, for example, would be incalculable. In many other directions it can be used to supplement and augment the present methods of teaching.

Fines on overdue library books paid to the Public Library of Chicago run to \$40,000 a year, according to the librarian. This money goes into pension fund for Chicago library employees. The fund totals approximately \$200,000 at this time.

### PREPARATION TO START TRIAL OF PAIR LAUNCHED

August 4 Announced as Date For Opening of Trial For Chicago Lads

#### ALIENISTS AT WORK

Insanity Understood to Take Foundation of Defense In Case

(By the Associated Press)

CHICAGO, June 12.—Preparations for the trial August 4 of Nathan Leopold, Jr., and Richard Loeb, millionaires' sons, and confessed kidnapers and slayers of Robert Franks, school boy, began today with insanity expected to be the issue.

Beginning today a corps of alienists in charge of Dr. James Whitney Hall of Chicago will examine the youths in their cells without the attendance of jail guards or prosecutors.

Although defendants' attorneys declared the defense had been given insufficient time to prepare for the trial when the date was set yesterday, they will begin the ground work of the insanity plea, it was indicated. Meanwhile the prosecution continues to question witnesses before the grand jury relative to the mental state of the accused.

Despite the protest of State's Attorney Crowe, who desired that the trial date be fixed for July 15, the earliest possible under the law, Chief Justice Waverly of the criminal court set July 21 for arguing the preliminary motions and fixed two weeks later for the trial.

Both youths neatly attired displayed no emotion as curious spectators milled about the court room and broke down a door in an effort to get a glimpse of the prisoners as they pleaded not guilty. It was Loeb's nineteenth birthday and was the date both boys had fixed for sailing for Europe to spend the summer.

### ALLEGED BANDIT SLAIN IN PITCHED GUN BATTLE

(By the Associated Press)

PURCELL, June 12.—Claude Lee, alleged to have participated in the robbery of the First State bank of Washington, was killed and his companion Guy Wilkerson, also charged with the robbery, was captured by officers after a gun fight in a grove near Blanchard today.

The fight followed a chase that led to the grove. As officers Oscar W. Morgan, city marshal, and James Williams, night watchman at Blanchard came upon the alleged robbers the fugitives opened fire wounding Morgan in the leg. Morgan then shot and killed Lee and Wilkerson surrendered.

Wilkerson was placed in the Blanchard city jail. Part of the \$1,751 stolen from the bank was recovered, but officers said they believed the silver included in the loot had been buried near the scene of the fight. A search for it was to be made today.

Morgan's wound was declared not serious.

### Borah Refuses to Link Future With President Coolidge

(By the Associated Press)

WASHINGTON, June 12.—After a conference with President Coolidge today Senator Borah said his attitude towards the vice presidential nomination was unchanged.

"My position in respect to the nomination is irrevocable," he said, "and it will not change." Senator Borah said he had sent a telegram to former Senator Beveridge of Indiana, to be read in the convention if by any chance his name was placed in nomination. His telegram, he said, would definitely end consideration of his selection.

The Idaho senator said he considered that Federal Judge William S. Kenyon of Iowa and Governor Hyde of Missouri had the best chances for the place.

(By the Associated Press)

To Build New Vessels NEW YORK, June 12.—Two new passenger vessels of a tonnage of 32,000 each will be built during the next year by the United States shipping board, E. C. Plummer, vice chairman of the board, announced.

(By the Associated Press)

The Nawab of Bahawalpur, India, is only nineteen years old.

### Widow of Kentucky Leader Figure at G. O. P. Meeting

MRS. ALVIN T. HERT

Mrs. Alvin T. Hert, the new vice chairman of the Republican national committee, is the widow of the late Republican national committeeman from Kentucky. She lives in Louisville. Mrs. Hert succeeds Mrs. Harriet Taylor Upton, who resigned to seek a congressional seat from Ohio.

### COLLEGE RURAL CLUB ASSEMBLES

Speakers Tell of Problems to Promote Co-operation Between Factions

The East Central College Rural Club held its regular summer meeting at the college today at noon, a picnic luncheon being served by each county organization separately.

About four hundred men and women, all interested in better rural schools, gathered under the trees on the northeast part of the campus and enjoyed an hour of eating and speaking.

The meeting was presided over by Superintendent L. V. Porterfield of Seminole county, president of the organization. He said the organization is a new departure in education, being the first one known to have existed. He praised the work the college is doing in advancing the cause of education in the rural districts through its president, and Professors McCormick and Herring. He was re-elected president of the association.

President Linscheid stressed the importance of rural schools, saying that we have been emphasizing the little things instead of the big things. One of the big things is the rural school.

He deplored the prevalence of religious intolerance and gulf between urban and rural inhabitants. Few country people go to church in the cities any more.

These differences are caused to a great extent by the spread that exists between the product of the farm and the completed product, or the difference between what a farmer sells and what he buys.

The great thing for the rural teachers, as well as for all the rest of us he said is to try to right the wrong and promote a spirit of good fellowship and brotherly love.

County Agent Plattner of Coal county sees a bright future through educated teachers and educated farmers working intelligently towards one end. The farmers must be educated so they can intelligently meet the problems, he said.

The county agents, county demonstration agents, and county superintendents, together with the rural conference workers, will hold a banquet this evening at the Harris hotel.

(By the Associated Press)

GUTHRIE, June 12.—Two masked men today entered the First State bank of Meridian, 12 miles east of Guthrie, held up the cashier and escaped with all the cash in the building with the exception of the pennies.

### Jail Empty in Reform Period for Community

Pontotoc county is a peaceful community. Even the doors of the county jail stand ajar as evidence that past violators of the law within the limits of the county prefer obedience to low to outlawry and confinement.

Pontotoc county has but one prisoner, a trusty who is braving the boiling hot sun to make the premise of the county a more attractive place for possible unfortunate who are suffered to confinement within the boundaries of the jail yard.

Undersheriff P. H. Deal attributes the lack of law violators to their increasing desire for liberty during the summer months over the year.

Veteran peace officers of the county declare that empty jail houses were rare in former years and relate how week-end parties clogged the bastle to its capacity and a continuous stream of violators kept the county jail a familiar haunt to unruly ones in Pontotoc county.

During the lax periods when the jail doors remain ajar, Jailer Bill Condren turns deputy sheriff and hustles about over the county serving subpoenas and doing other routine matters in the functions of the office.

### Ardmore Lads Are Placed in Death Row at Penitentiary

(By the Associated Press)

MCLESTER, June 12.—George Mullen and Estelle Perkins, 19-year-old Carter county lads sentenced to die in the electric chair August 29, were received at the Oklahoma penitentiary last yesterday and confined to the death row in which four others await the penalty unless relieved by courts now reviewing their cases. The Ardmore youths were near physical collapse when placed in their cells.

Another arrival at the prison yesterday was Marvin Kinnannon, slayer of a negro porter and white proprietor of a hotel at Marlow. He has 25 years to serve.

### DAILY AVERAGE CRUDE OIL PRODUCTION GAINS

(By the Associated Press)

NEW YORK, June 12.—Daily average gross crude oil production in the United States increased 400 barrels for the week ended June 7, totaling 1,983,800 barrels according to the weekly summary of the American Petroleum Institute. The daily average production east of the Rocky mountains was 1,358,150, an increase of 6,000. California production was 625,654, an increase of 5,600. Oklahoma showed a daily average production of 465,800, an increase of 17,350.

### LARGEST MAJORITY IN G. O. P. HISTORY FOLLOWS COOLIDGE THROUGH CONVENTION RALLY

La Follette and Hiram Johnson Receive Meagre Handout From Awards Of Republican Convention

(By the Associated Press)

CONVENTION HALL, Cleveland, June 12.—With the ringing enthusiasm of his party behind him Calvin Coolidge was nominated for the presidency today by one of the largest majorities ever given by a Republican convention.

Before the first roll call was half completed the story of his victory had been told as state by state votes of solid delegations from East, West, North and South were thrown to his support.

No other nomination was presented formally to the convention but 28 of the 29 Wisconsin votes and 6 from North Dakota were cast for Robert M. La Follette and 10 of the South Dakota delegates followed out their primary instructed and voted for Hiram Johnson.

The totals were as follows:

Coolidge, 1065.

La Follette, 34.

Johnson, 10.

Necessary to choice, 556.

When the result was announced the convention recessed until late this afternoon when it will select Mr. Coolidge's running mate.

### STOP LAWS TO BE RIGIDLY ENFORCED

Violators of Stop Laws to be Hailed Before Police Court In Future

Again motorists are warned to use the emergency brake and bring their vehicles to a halt on white lines that mark the intersections on Main street or the shiny badges of police officers will play a prominent public.

According to an announcement of part in the affairs of the motoring Police Chief Hargis, a growing disregard for traffic laws and especially the one governing stop regulations for cars coming out Main street has prevailed during the past few weeks.

With the coming of summer months and an increase in motor traffic on the streets the city, Chief Hargis stated that a more stringent enforcement of traffic laws is necessary to safeguard the public.

Hargis stated that the failure to heed stop signals has especially been predominant at the intersection of Main street and Mississippi avenue, several complaints having been received from violation at that point.

Hargis warned that failure to stop at intersections onto Main street is a violation of a city ordinance and punishable by fine or jail sentence. He further stated that this ordinance would be enforced without favor.

The police chief further stated that speeders had been brought into tow by the department recently and warned that this offense would be given the full measure of the law.

### President Coolidge Hears of Confidence Of Republican Ranks

(By the Associated Press)

WASHINGTON, June 12.—President Coolidge sitting before a radio receiving set in the White House today heard the swelling chorus by which he was nominated to lead the Republican party in the next campaign.

With Mrs. Coolidge the president was in the White House when the vote was taken. It was said he would make no formal statement at this time on the work of the Republican convention.

During the hours preceding his nomination President Coolidge heard the details of the convention proceedings. He gave no outward manifestation when the vote was completed.

Read all the ads all the time.

CONVENTION HALL, Cleveland, June 12.—June 12.—Calvin Coolidge was all but unanimously nominated for president today in the Republican national convention.

The voices of the little group of LaFollette men from Wisconsin and North Dakota who have stood through the convention in militant insurgency against the policies of the party leaders were almost solid in the face of the tremendous wave of acclamation that formally ratified Mr. Coolidge's choice as standard bearer of his party.

It was the plan to choose the president's running mate at another session this afternoon. Then the convention will adjourn and the party will go before the country.

Not in many years has a Republican convention come so near unanimity in its selection of a nominee for the presidency. Placed in nomination by Dr. Marion Leroy Burton of Michigan, Mr. Coolidge's name threw the assembly delegates into another old time demonstration and when the roll call began state after state took its place in the column of his supporters. The call of the states was scarcely half over when the necessary majority to nominate had been recorded in his favor.

Convention in Tumult. It was 10:40 o'clock when Chairman Mondell again rapped for order. The chairman could not get order, but the strains of the "Star Spangled Banner" quieted the disorder and brought the delegates to attention. Then Bishop Schrems of the Roman Catholic diocese of Cleveland offered prayer.

After the prayer the song leader got into action again in singing "America."

Chairman Mondell then introduced Senator Wadsworth of New York who took the platform and got a demonstration from all parts of the hall. He told the convention he had been directed by his delegation to offer a resolution to send a telegram to Chauncey M. Depew who was unable to come to the convention for the first time since the nomination of Lincoln. It was a telegram of felicitation on Mr. Depew's recent 90th birthday anniversary. The resolution was adopted with cheers and the telegram was ordered sent.

Then the chair called for the names of new national committeemen and committeewomen. The state delegations responded with the names as they were called by the clerk from the platform.

Union Defenders March. While the call of committee names was going on the word went out from the Wisconsin delegation that they would support Senator George W. Norris of Nebraska for vice-president. Senator Norris has been prominently identified with the insurgent bloc in the senate.

A delegation of defenders of the Union then marched down the center of the hall headed by Senator Willis while the convention rose to its feet. The Civil War veterans march down carrying their muskets and the convention sang "Tramp, Turn to Page 3, No. 1

## BIBLE THOUGHT FOR TODAY

TRUST IN THE LORD with all thine heart; and lean not unto thine own understanding.—Proverbs 3:5.

France is to elect a new president today or tomorrow, the parliament having forced President Millerand to quit the job. However, in France the president is elected by the joint vote of the senate and chamber of deputies and there is no protracted campaign such as we have in the United States. The radicals won the recent parliamentary election and then came the resignation of Poincare and the forced resignation of Millerand. A French president is elected for a term of seven years, but only three since the establishment of the republic in 1871 have served their full time. Five resigned, one was assassinated and one died in office under very suspicious circumstances.

The teachers colleges of the state are getting closer and closer to the people. They are rendering a distinct service apart from the mere furnishing of teachers. The work of the rural education departments is one of the best things yet undertaken. We have insisted for years that the extension work being done by the A. and M. college really ought to be done by the teachers colleges, for this work is mainly restricted to the boys and girls and comes under the head of rural education. We hope to see this change before long, for the teachers colleges are closer to the people on the farms than the big college at Stillwater can ever hope to be.

The Republicans are pointing with pride and viewing with alarm. To take all they say at its face value, one would reach the conclusion that the Democrats are a bunch of ignorant hill billies, with little or no conscience, while the Republicans are spotless angels with all the wisdom of Solomon multiplied by all the numerals in the multiplication table. It will soon be the Democrats to repeat the pointing and the viewing.

There is nothing new in the propaganda against the prohibition amendment. Every argument put forth is the same used for the past 50 years wherever prohibition was put into effect. If it does not interfere with the business of the saloon men and distillers we fail to see why they are so much concerned about the violations of the law. They never had anything to say about enforcing liquor laws while riding roughshod over them when saloons were open.

A bunch of Muskogee men have organized a company with a capital of \$100,000 to launch another newspaper in that city. Since Muskogee is too small a place to support three papers the chances are that the promoters of the new enterprise will get some costly experience. Putting an old established paper out of business is some hard job as these promoters will find very shortly.

Senator Borah is too wise an old bird to be lured into obscurity and silence by the bait of the vice-presidential nomination. Borah has been almost as hard for the regulars to manage as has La Follette and this would have solved the difficulty. His refusal to consider the nomination puts a definite end to the plan and he will be heard in the near future as in the past.

Some of the out of state newspapers are giving Oklahoma much favorable publicity as a result of the trip of the editors to the land of flowers, sunshine, rain and oil wells, and other as interesting things. The men came and saw what a great empire the Oklahomans are building and they are telling the world in words of lavish praise about it.

An Okmulgee county man obtained an injunction ordering a woman to stay out of his blackberry patch. Some people are always taking the joy out of life.

When a fellow listens to only one side of a question for a time he is likely to decide that there is no other side and that all who hold an opinion different from his is either a crook or has bats in his belfry.

It is to be hoped that the Kiwanis and their friends get the park cleaned off at Byrds Mill springs. However, if the weather is as hot down there as it is here in the city, we fear some of the fellows will loaf on the job.

We suggest that the Methodists, instead of erecting a large college in some part of the state, build a college of theology at Ada and let the students use the East Central State Teachers College for their literary and scientific work.

Press reports of elopements indicate that family chauffeurs of millionaires are running the holders of European titles a close race for hearts and hands of American heiresses.

We expect to learn some time later that there is no lack of supply for the demand for office holders. Somehow these public offices just naturally do not go begging.

Let a NEWS WANT AD get it for you.

## BEHIND THE SCENES AT G. O. P. CONCLAVE WITH BUSHNELL

## OKLAHOMA GOLFERS HURRY TO ARDMORE

Over Hundred Feeling Out Dornick Hills Course For Tournament

(By the Associated Press)  
ARDMORE, Okla., June 12.—Oklahoma golfers are trekking this way for the opening of the 1924 state open and amateur golf tournament which opens here Saturday. More than 100 players have been here since the middle of the week "feeling out" the Dornick Hills course where the tournament will be played.

Scores of golfers have motored to Ardmore and special cars on regular trains are bringing representations from Oklahoma City, Tulsa and Muskogee.

The open championship will be played over a 72-hole route Saturday and Sunday while the amateur championship qualifying round is scheduled for Monday. It is estimated that the tournament will last seven or eight days, depending upon the number of entrants. It is predicted more than 3,000 golfers will take part in the matches, a greater number, by several score than any other state tournament.

Dornick Hills course, one of the best in the state is said to be the most picturesque in the southwest. It is particularly hilly and every kind of shot can be executed on its 18 holes. Golfers pronounce its dogleg and water holes among the most difficult on any course in the United States. The Hills club house is a commodious building, looking across rolling hills and heavily shrubbed stream courses. Work on a new swimming pool has been rushed and it will be ready when the first golfer tees off Saturday. Several dances and dinners have been arranged by the Hills management for the visitors, and other entertainment features are planned by Ardmore hosts and hostesses.

Bill Greavy, Oklahoma City Golf and Country club professional, is looked upon as a favorite in the open, as he shot the Dornick course in 70 a few weeks ago. Keefe Carter, 18-year old star of the Oklahoma Golf and Country club, is expected to show to the best advantage in the open as he is regarded as a better medal than match player. Sandy Baxter, also of Oklahoma City, is another pro who is expected to be in the money.

James Kennedy, Tulsa Golf and Country club veteran, holder of the state amateur title for five years, is expected to repeat this year but his crown is more unstable at the opening of this year's plan than any of the previous years he has defended it, it is said.

MUSKOGEE—Muskogee county is ready to give the Oklahoma state highway department \$75,000 toward the building of a chain of permanent highways throughout the state, county officials have announced.

Other counties are expected to follow the plan and offer the department funds for the road program, according to E. Lee Guthrey, secretary of the highway commission.

BUENOS AIRES.—Argentina this year probably will produce 47,000 bales of cotton, figures which denote a material increase in the industry. Capital is going into this new business, attracted by the good profits, settlers are moving into the cotton belt, and a boom in cotton growing and spinning is predicted.

## The Forum

Women, the Conquerors.

(South Carolina Piedmont)

The papers show a new kind of confidence game is being worked in Boston. A man went to the movies sporting his \$725 diamond ring. A girl, about 16, sat next to him. She admired the ring. My, she had always wanted to see a ring like that on her finger. The man was obliging. He couldn't resist the appeal of the feminine one. Then he was asked if he had the correct time. He did. What, so late in the afternoon. Would the man mind holding her hat, the girl asked, while she telephoned mamma she would be late for supper. Sure he would do so. He still has the hat. The bobbed-haired girl still has the diamond.

About 20 years ago, when women began flocking into business after generations of seclusion in the American home, business men began to sense the commercial possibilities of a pretty face and soft voice.

The telephone companies tried male operators early in the game. But customers were so rough with "Central" over the wire, and called at the office to stage a fight so often, that the companies began to hire girls.

Restaurant men know that waitresses bring more business than waiters, as a rule. Each pretty waitress attracts her own following.

It's the same in stores catering to men, all the way from clothing to tobacco.

Beauty is a commercial asset. They're even turning elevators over to fascinating young misses. Biology is getting on a business basis.

Governments are incredibly stupid in not using women as diplomats. Germany, for instance. She might get better terms at a reparations conference if she were represented by ravishing vamps instead of solemn statistical agents with heads like gourds.

Women have become a fixed institution as lobbyists around most legislative bodies. Why not try

Southwestern Bell Telephone Company  
Sixteenth Dividend

The regular quarterly dividend of one dollar and seventy-five cents per share on Preferred Stock will be paid on Tuesday, July 1, 1924, to stockholders of record at the close of business on Friday, June 20, 1924.

Treasurer.

## AT LAST A SQUARE DEAL FOR RHEUMATIC SUFFERERS

We could write a book about this new treatment for rheumatism, gout, neuritis and neuralgia pain, but this might not convince you that Buhler Oil will end the pain of YOUR rheumatism or make YOU feel that you would like to try this wonderful treatment yourself. But when we tell you that over one hundred thousand bottles of this wonderful remedy have been sold in the few months this preparation has been on the market, you must believe that thousands of people have secured positive relief from their pain or this enormous sale would not have been possible.

We make no fantastic claims but we do say that if Buhler Oil does not relieve the pain of YOUR rheumatism, your druggist is authorized to return your money to you. With this liberal guarantee go at once to any of the following good drug stores and get a bottle of Buhler Oil. Hensler & Smith, G. L. Thompson, M. A. Waits, Gwin & Mays.

them internationally? And their beauty wouldn't be the only advantage. Feminine intuition and practical psychology would help, not to mention their brain power. They'd take to the game like a duck to water. In former centuries women like Du Barry, powers behind the thrones, made whole nations their toys.

Try a Want Ad for results.

## POLITICAL ANNOUNCEMENTS

The News is authorized to announce the following candidates, subject to the Democratic Primary, August 5, 1924.

For Representative  
FRED F. BRYDIA  
WILL M. THOMPSON

For Sheriff:  
A. C. (AL) NABORS  
W. B. WALKER

For County Commissioner Dist. 1  
W. H. BRUMLEY  
H. CLAY STEPHENS  
M. F. HEATLEY

For Commissioner District No. 2.  
C. J. (Charles) LASEMAN.

For Commissioner, District No. 3:  
BOB BROOKS.  
W. H. BRENTS.

For County Superintendent of Public Instruction:  
MRS. FARRIE BRITT  
A. FLOYD

For County Treasurer:  
ALBERT CHAMBERLAIN.

## Takes pills for years—finds first permanent relief in Kellogg's Bran

Have you found permanent relief from that terrible disease—constipation? The woman whose letter follows discovered—as thousands have discovered—that Kellogg's Bran succeeds when all else fails. This is because Kellogg's Bran is ALL bran. Nothing but ALL bran can be so effective. This is what she wrote:

"Gentlemen:  
I am so wonderfully happy over my discovery. I feel I must tell the world about it. For years I have been ill continually from constipation, always resorting to pills or the like, never having any permanent relief until I heard of your Krumbled Bran.  
Every morning I take two table-spoonfuls before my breakfast—and since the latter part of August I must admit have not experienced one sick spell which I have had for years. I have started my little girl

of four years on your Bran, and already I have noticed a change in her. I thank you.  
Name and address furnished on request. Write the Kellogg Co., Battle Creek, Mich.  
If eaten regularly, Kellogg's Bran, cooked and krumbled, is guaranteed to relieve permanently the most chronic cases of constipation. Eat at least two tablespoonfuls daily—in chronic cases, with every meal. Money returned if not effective.  
Notice the wonderful nut-like flavor. This flavor is delicious—so different from ordinary, unpalatable bran.  
Kellogg's Bran, cooked and krumbled, made in Battle Creek, is served by America's leading hotels and clubs. Demand Kellogg's Bran. It will bring back your health. Start eating it today. Sold by all grocers.

When you want it

LOST—Water spaniel dog wearing leather collar, answers to name "Pretty"; reward. John Cheney, Center, Okla. 4-9-21\*

## ARISTOCRATS OF GERMANY WIDELY AID THEIR CLASS

(By the Associated Press)  
LEIPSIK—The association of German Aristocrats has more than trebled in membership during the last three years. From an organization founded by 30 noble Prussians some 50 years ago, it now claims an enrollment of 15,000.

The association has become very active in educational work, and has established schools in several population centers where members of aristocratic families may take courses in cooking, household management and nursing, and learn other duties pertaining to the home. Considerable attention, too, has been paid by the members of late to teaching social hygiene. A recent report of the directors sets forth plans for additional housing facilities for old people's rest homes conducted by the association, where dependent aged men and women of the society may spend their last days in peace and comfort.

The average time limits for baseball in major leagues range from an hour and a half to an hour and forty-five minutes. In the last ninety the game average was nearly three hours.

"Bigness" vs. "Heart Interest." Many motion picture productions have been called "big" and "great" when massive sets were built and thousands of persons engaged for various scenes, but the photoplays which have made the most money and which have maintained their hold over the public the longest are not those which depended altogether, or even mainly, upon physical "bigness," but those which had what is called "heart interest."

The reader can check up from his own experience the photoplays which made the most vivid and lasting impression upon him, and the massive spectacle will not be included in the list, save in rare instances when the spectacle also made a successful play upon the emotions. The pictures that are remembered the longest and with the most affection are those which appeal directly to the heart through their reality.

One picture that has appealed most deeply to the American public is Rupert Hughes' story of home and mother, "The Old Nest." Its appeal was to the fundamental instinct which makes the home the foundation-stone of our democracy. Pursuing the same line of thought, Rupert Hughes has made another Goldwyn photoplay, "Remembrance" showing at American theatre today and Thursday, which is a companion piece to "The Old Nest." It pictures Father in just as intimate and sympathetic a vein as the earlier photoplay represented Mother. It has "heart interest" in the same degree; the human, homely touches which make a photoplay so appealing; the comedy which life mingles so industriously with the pathos and tragedy of existence.

### OLD OAKEN BUCKET WORKS OVERTIME IN GERMANY

(By the Associated Press)  
BERLIN—Before the war the average per capita consumption of coffee in Germany was five pounds annually, and in 1923 it fell to about one pound. The consumption of beer is only about one-half what it was before the war, and the use of tea and cocoa has fallen off in about the same proportion as coffee. The drinking of milk in the big cities ranges from one-tenth to one-fifth of pre war days.

To the above extent the people of Germany are becoming drinkers of water.

## Former Tulsa Man Is Selected Head Of Houston Schools

(By the Associated Press)  
HOUSTON, Texas.—E. E. Oberholtzer, former superintendent of the Tulsa school system, and still a resident of that city, was unanimously elected superintendent of the Houston schools Monday night. He will succeed R. B. Cousins who has resigned in order to accept the presidency of the state normal school at Kingsville, Texas.

Oberholtzer was elected largely on his record as superintendent of the Tulsa schools, of which he was in charge for nine years, having been elected in 1913 and resigned early in 1923.

The Houston position carries a salary of \$9,000 for the first year and \$10,000 for the second year. He will take his new position about June 1.

Houston now has a school enrollment of about 33,000 and is facing a big expansion program. A bond issue of \$3,000,000 to \$4,000,000 is contemplated at once to erect new buildings and enlarge structures now in use.

### THOMPSON GETS SENTENCE ON PLEA OF GUILTY

CHICKASHA.—"Blackie" Thompson was sentenced to serve 25 years in the state penitentiary at McAlester today when he pleaded guilty to the robbery of the First State bank of Rush Springs on August 3, 1923, before District Judge M. W. Pugh of Marlow. Thompson's trial in district court had been set for April 10.

Neal McWhirt, alleged to have been implicated in the robbery and his sister-in-law were found dead at Pawhuska three weeks ago, shortly after McWhirt had been liberated on bond of \$20,000. A coroner's verdict said McWhirt killed the woman and committed suicide.

Let a News Want Ad get it. Let a News Want Ad get it.

### FRED DENNIS TO BE TRIED—IF POSSIBLE

(By the Associated Press)  
OKLAHOMA CITY.—Fred Dennis, wandering former bank commissioner, is to be brought to trial in the Canadian county courts, if possible, just as soon as the court convenes, J. T. McIntosh, attorney for the banking department announced Tuesday.

Senator C. E. McPherrin, attorney for Dennis, says that his client is working on a farm and will be ready for trial. Dennis will be taken to El Reno by the banking department to answer a number of indictments growing out of several bank failures, McIntosh said.

### KLAN CANDIDATE ELECTED MAYOR OF MUSKOGEE

(By the Associated Press)  
MUSKOGEE, April 8.—F. B. Beall, Ku Klux Klan candidate for mayor, was elected at the city election Tuesday. The vote was: Beall, 4,566; R. B. Beard, leading the citizens' non-klan ticket, 3,589. The Klan filled all nine vacancies on the city council with approximately similar majorities.

A total of 8,473 votes were polled. A few minor instances of violence marked the day, and a district court issued a restraining order against city policemen, special sheriff's deputies and city firemen from molesting voters at the polls.

## KANSAS BANKER TELLS HOW HE WON FIGHT

### Prominent Man Gives Tanlac Credit For Helping Him Win Battle With Stomach Trouble.

"That I am so strong, active and full of energy at seventy-six I can attribute only to the help I have received from Tanlac. It has won my stamp of approval I give it my unqualified endorsement."

The above statement was made, recently, by M. Nightser, a retired banker and farmer, of Sedgwick, Kas. Mr. Nightser was the first president of the Farmers State bank of this place, and is still a director. He has lived in this section for a half century and enjoys the respect and esteem of all who know him. Speaking further of his experience with Tanlac, Mr. Nightser said:

"Before taking Tanlac I had been trying everything for three years in my efforts to get rid of stomach trouble, but just kept on getting worse and worse. My digestion seemed wrecked and I would suffer pain

and misery for two or three hours after a meal. This indigestion also made breathing difficult, and I had no appetite. Again, a spell of flu, a few years ago, left me with such a weakness in my legs that I could hardly get about.

"I began taking Tanlac in October, 1922, and in a few weeks time my friends were stopping me on the streets to tell me how well I was looking. Tanlac had done what my wife and myself both thought impossible, uprooted all my troubles and built me up to all round good health. I consider that each bottle of Tanlac I took did me all of a thousand dollars worth of good."

"I still take Tanlac now and then as a tonic and I couldn't ask for better health and strength than I now enjoy. My appetite and digestion never fail me, I sleep fine and haven't an ailment to complain of. Tanlac will certainly stop a lot of needless suffering if it only has a chance."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 Million bottles sold.

Take Tanlac Vegetable Pills. Adv.

### Many To Attend Bridge Opening

New Half Million Dollar  
Bridge to be Dedicated  
At Minco

(By the Associated Press)

CHICKASHA, June 12.—Waters  
from the Gulf of Mexico and from  
Great Lakes will mingle with the  
sluggish flow of the South Canadian  
river when the new \$500,000  
bridge over that river, south of here  
is dedicated tomorrow.

In the presence of Governors M.  
E. Trapp of Oklahoma, Pat M. Neff  
of Texas and Jonathan Davis of  
Kansas and thousands of other per-  
sons, Mrs. Glowerene Gentry Hohn  
of Enid, daughter of S. J. Gentry,  
state highway commissioner, will  
place a bottle containing water that  
washed the shore of Mexico and  
flowed from the plains of Manitoba,  
on the bridge.

Detailed plans for the all-day  
program have been completed, ac-  
cording to Dr. D. S. Downey, chair-  
man of the Chickasha chamber of  
commerce convention committee.  
The festivities are to open at  
10:30 a. m. with a concert by the  
combined bands of Marlow, El Reno  
and Comanche. Then will follow  
the dedicatory ceremony and the  
christening. Standing in the middle  
of the bridge Governor Trapp will  
welcome Governor Neff, walking  
from the south end of the bridge  
and Governor Davis approaching  
from the north end. The executives  
then will pose for pictures with  
commissioners of Grady and Cana-  
dian counties which voted the bonds  
necessary to build the structure.

Cy Avery, chairman of the state  
high way commission, will, in a  
short address, outline the history of  
the Minco bridge project, from its  
inception until the completion. Fol-  
lowing this talk, Mrs. Hohn will  
christen the bridge. A basket lunch  
will be served at noon. A band con-  
cert and addresses by the three  
governors and John C. Nicholson,  
Newton, Kans., president of the  
Meridian highway association, will  
take up the afternoon.

At night the bridge will be turned  
over to dancers. Three bands, one  
in the center and the others at  
either end of the bridge will provide  
the music. Festoons of electric lights  
have been strung over the steel  
superstructure of the bridge to light  
the unique dance floor. Comfetti,  
paper hats and other carnival para-  
phernalia will add to the occa-  
sion, the committee promises.

Preparations have been made to  
take care of a crowd of 15,000 per-  
sons, a half dozen cities in the  
vicinity of the bridge, having com-  
bined to meet the emergency.  
Th Minco bridge spans the Cana-  
dian at one of the worst places in  
that treacherous stream. It has  
been under construction more than  
two years and every precaution was  
taken to insure it withstanding  
periodic floods that change the  
Canadian from a shallow meander-  
ing creek to a raging torrent, en-  
gineers say. Bonds voted by Grady  
and Canadian counties and money  
contributed by the state and federal  
highway departments financed the  
structure. It is one of the most im-  
portant bridges on the Meridian  
highway which stretches from Win-  
nipeg, Canada, to Mexico City.

mission, which constitutes an appeal  
to their reason for a sane and ra-  
tional mode of living."

### Card of Thanks

We wish to thank each one who  
in any way helped to brighten our  
sad hours during the illness and  
death of our baby girl, Dora Nelle.  
—Mr. and Mrs. O. F. Hunt, Mrs.  
W. L. Pryor, W. W. Pryor, O. L.  
Hunt, Mr and Mrs J. H. Pryor.

## COLLEGE NOTES

Dr. Linscheid attended the text  
book commission yesterday. Twenty-  
one firms presented arithmetics and  
twenty-two firms readers. There will  
be another meeting Monday at  
which time argument will be heard  
on histories and civics.

The banquet for county farm  
agents, home demonstration agents,  
and county superintendents has been  
changed from 6:30 to 8 o'clock this  
evening.

B. A. Pratt who at one time was  
a member of the college faculty  
and now state supervisor of boys  
and girls club work is here helping  
in the conference. Mr. Pratt has  
been active in this work for some  
time, having taught agriculture here  
and at the A. and M. college.

A photograph of the entire school  
body was made this morning at  
11 o'clock.

A picnic dinner was held on the  
campus today. Speakers were County  
Superintendent L. V. Porterfield,  
County Agent Pleetner and Dr. A.  
Linscheid. The rural club will elect  
officers also.

Six of the eleven counties are  
represented in a baseball tourna-  
ment. The county winning in the  
largest number of games will be  
awarded a pin. So far Murray and  
Pontotoc have been victorious over  
Garvin and Cole. This afternoon  
Cfuskee plays Seminola. Monday  
a team picked from the College fa-  
culty will play Coalgate.

Mr. and Mrs. L. V. Porterfield  
are here attending the Rural School  
conference. Mr. Porterfield is super-  
intendent of Seminole county  
schools.

Archie Barrow will leave this eve-  
ning for Austin, Texas, where he  
has accepted a position for the com-  
ing year.

Superintendent John Hefley, sum-  
mer school instructor of the Col-  
lege will go to Holdenville this af-  
ternoon on a business trip. Mr.  
Hefley is superintendent of Hughes  
county.

### No. 1

Tramp, the Boys Are Marching."  
The delegation was composed of the  
Old Guard of Columbus, Ohio. Then  
on behalf of the convention, Chair-  
man Mondell thanked the guard for  
coming. It filed out at "carry arms"  
to the accompaniment of cheers and  
applause from floor and galleries.  
Then the convention went to call-  
ing the roll for nominations for  
president. Alabama, the first state  
called, yielded to Massachusetts and  
Gov. Cox of Massachusetts moved  
that Dr. Burton be accorded the  
privilege of placing in nomination  
the candidate of Massachusetts.  
So it turned out that Dr. Burton  
spoke as the representative of Mas-  
sachusetts, the president's home,  
instead of Michigan, his own.

Dr. Burton, tall and of striking  
figure, stepped briskly to the front  
of the platform and calmly survey-  
ed the great audience and waited for  
the applause and cheers to die so  
he could begin his speech.  
"Fellow citizens of America, the  
greatest country the world has ever  
seen," he began while the hall  
rocked with cheering. Dr. Burton  
spoke clearly and rapidly. He spoke  
without manuscript but followed  
his prepared address shortening it  
here and there, but preserving the  
sense of the speech which without  
doubt had been approved by Pres-  
ident Coolidge.

## Lodge and Club Notices

Notice Presbyterian Choir.  
Rehearsal tonight at Presbyterian  
church at 7:30. Fred J. Schreiber,  
director.

Klansmen Attention  
Regular meeting of Ada Klan No.  
27 Friday, June 12, at 8 p. m.  
Large class to be initiated. Certifi-  
cates ready for all who are eligible  
for second degree. If you are plan-  
ning to go to Sulphur the 16th be  
present Friday night and receive your  
certificate.—By order of the  
Exalted Cyclops.

## ASTHMA? Take Rinex

Rinex, a new internal treatment taken in  
simple capsule form, always violent spasms  
in 30 minutes and is guaranteed to bring  
full relief in 24 hours or money back.

FREE TRIAL OFFER  
Just now through a special introductory  
arrangement, you can obtain a trial  
treatment entirely FREE. Simply go to  
any of the drug stores named below and  
ask for a trial package of RINEX. No  
obligation at all on your part. But be  
sure to ask for your free treatment with-  
in the next three days—this offer is  
limited. It may be obtained in this city  
at Wozencraft's Drug Store, Gwin &  
Mays.

### Polish Boy Scouts Prohibit Both Alcohol and Tobacco

WARSAW.—The Polish Boy Scouts  
have introduced complete prohibi-  
tion against alcohol and tobacco  
into their organization, and the re-  
striction is rigorously applied to all  
except honorary members. On the  
recent feast of St. Stanislas, the  
patron saint of the Polish president,  
whose first name in Stanislas, the  
Scouts presented to him the Scout  
badge and made him an honorary  
member.

Immediately after receiving the  
decoration the president returned to  
his palace to receive numerous  
guests and delegations bringing him  
good wishes. When during the re-  
ception wine was served the pres-  
ident excused himself, saying, "I am  
wearing the Scout sign and there-  
fore must respect the laws of the  
organization, so although it is my

fete day, I do not feel free to drink  
wine."

It is estimated that 500 ranchers  
in the United States are raising  
silver foxes.

# To Pilot Destiny of Republicans in 1924 Campaign

## OUR 30<sup>TH</sup> PRESIDENT

**DAD**—John C. Coolidge, father of the thirtieth president of the United States, at work on the farm at Plymouth, Vt., on which Calvin was born. He swore in his son as president on the old homestead and remained behind to see to the place, doing his own chores, when Calvin took up residence in the White House.

**HIS BIRTH-PLACE**—In this humble building, still standing on the Coolidge farm near Plymouth, Vermont, Calvin Coolidge was born on July 4, 1872, the son of John Calvin Coolidge and Victoria J. Moor.

**BRIGHT COLLEGE YEARS**—Two early photos of the thirtieth president. He is shown above as he appeared in 1895, when a senior at Amherst College, in Massachusetts. At the right he is pictured at the age of 20.

**THE DAY'S WORK DONE**—Calvin Coolidge snapped leaving the senate office building in the days when, as presiding officer of the senate, he was building up a reputation for immediate taciturnity.

**WHEN FAME ARRIVED**—Calvin Coolidge first attained national prominence when, as governor of Massachusetts, he ordered out the state guard to take the place of striking Boston policemen and took personal command as they patrolled the city and restored order. He is shown inspecting troops on guard on September 16, 1910.

**IN ACTION**—Calvin Coolidge speaking in the open air. Oratory played no part in the making of him as a political figure, his speeches being the speeches of a lawyer.

**INTIMATE VIEWS**—Of the thirtieth president of the United States, Calvin Coolidge. A portrait of Coolidge wearing such a lively smile is unusual.

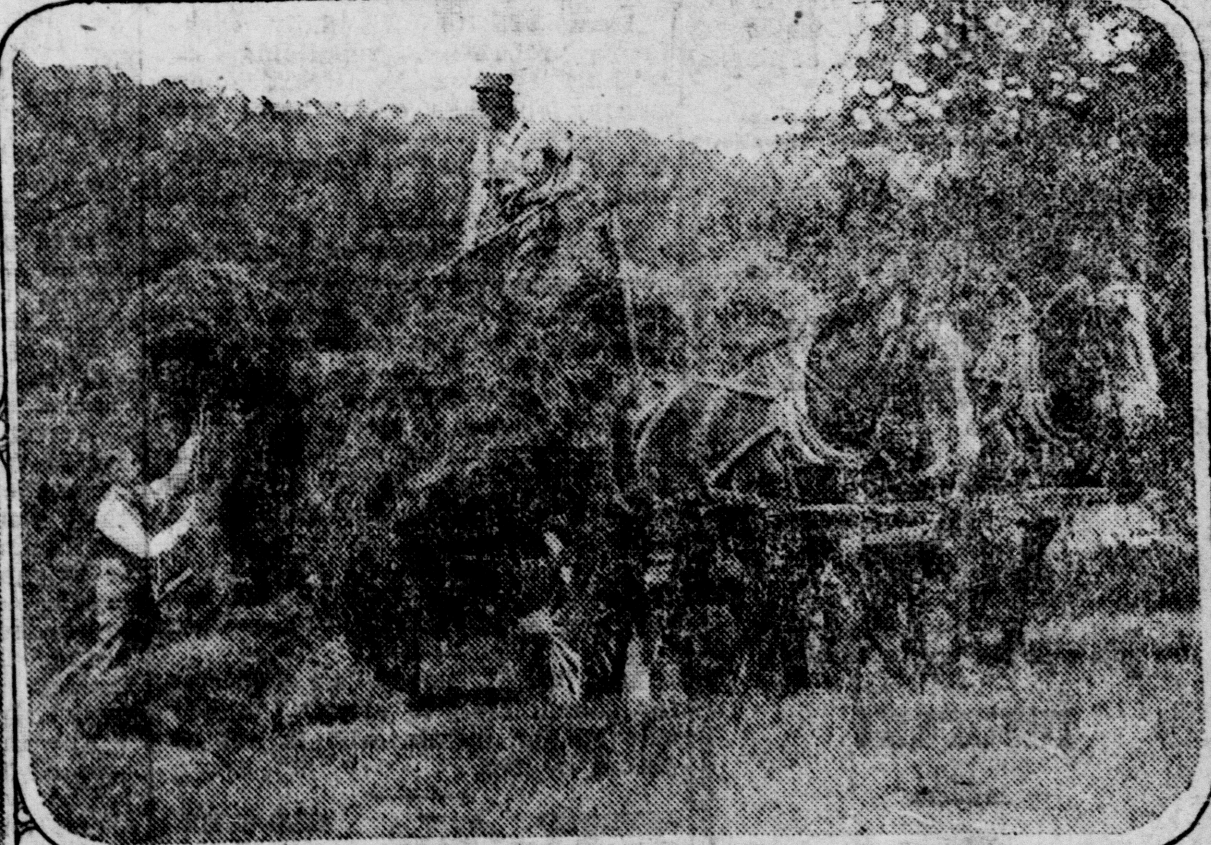

**MOTHER AND THE BOYS**—The first picture of the Coolidge family taken after they moved into the White House—John (left) and Calvin, Jr., only children of the Coolidges, with their mother and father on the lawn of the executive mansion.

**ONLY HIS WIFE**—Grace A. Goodhue, teacher, married Calvin Coolidge in 1905. She was constantly at his side, a helpmate, in the career which led to her becoming First Lady of the Land on an eventful day in August, 1923.

**A HOMEBODY**—Even after becoming First Lady of the Land, Grace Goodhue Coolidge continued housewifely duties, many a White House dinner having her personal touch, that of the woman brought up in the New England school of home-making and cookery.

**DOWN ON THE FARM**—Calvin Coolidge (at left), not in the least afraid of being sun-burned, helping out with the haying on the old homestead in the Vermont hills while on a vacation from Washington.

**HOME**—When Calvin Coolidge, governor of Massachusetts, became vice president of the United States, in 1920, he lived in one-half of this double house in Northampton, Mass., which he rented for \$92 a month.

## FIRST AID RELIEVES INJURY OF WORKER

The day of unattended injuries of workers in large manufacturing plants of the country are being gradually wiped out with the training in the principles of first aid.

When E. E. Vaughn, a worker at the Portland Cement plant here, suffered a broken foot in an accident at the plant yesterday afternoon his wound was given first aid attention and ready for setting before he reached the office of the company physician.

Under the tutelage of local doctors workers at the cement plant here have become thoroughly proficient in the principles of first aid for the wounded.

Owing to the large number of workers at the plant, accidents are numerous and to meet the medical needs workers have been trained to care for injured and prevent their wounds from unnecessary complications.

Workers at the plant have been divided into teams who daily take the responsibility for care of any one injured.

Wire screens, bandages and other first aid necessities are kept near at hand for use at a moment's notice.

Let a News Want Ad get it.

### KENYON DENIES HOPES OF VICE PRESIDENCY JOB

(By the Associated Press)

ST. PAUL, Minn., June 12.—Federal Judge William S. Kenyon, sitting in the circuit court of appeals here declared this afternoon that he was not and never has been a candidate for the Republican vice presidential nomination.

His judicial position, Judge Kenyon declared, made it impossible for him to even discuss what his probable action would be should the Cleveland convention nominate him as President Coolidge's running mate. He said, however, he was confident he would not be nominated.

### Jent to Preach Sunday

Dr. J. W. Jent, dean of the Oklahoma Baptist university at Shawnee will fill the pulpit at the First Baptist church Sunday morning. Those who are planning on going away to school this fall will do well to hear Dr. Jent and discuss with him the advantages of O. B. U. The pastor will deliver an evangelistic sermon at the evening hour.

A pension of \$72 a month for disabled veterans of the Civil and Mexican wars has been proposed in a bill in the legislature in Washington.

The dedication of the Veterans ward of the Oklahoma State hospital at Norman for the care of the shell-shocked and nervous veterans of the World War will be held Saturday, June 14.

With the dedication of the Memorial ward, constructed under the supervision of the Soldiers Relief Commission, another link in the hospitalization program of the American Legion is completed.

Through the efforts of the Legion hospitals for the disabled veterans of Oklahoma are now in operation at Muskogee where the Soldiers Memorial hospital is located, the Tubercular Sanatorium at Sulphur, and a ward of University hospital at Oklahoma City for the treatment of Service Men whose disabilities cannot be traced to their war time service. A recreation hall for the Muskogee building is now under construction.

The ward buildings at Norman were constructed at a cost of approximately \$100,000 from appropriations made by the Ninth Legislature. At the present time 83 veterans of the World War are housed in the new structure, and more are expected with the completion of the building.

The dedication services will be held under the supervision of the Soldiers Relief Commission, assisted by the American Legion. Dr. D. W. Griffin, superintendent of the Norman institution is also a member of the District Rehabilitation committee of the American Legion.

A special entertainment program featured the last regular meeting of Oklahoma City Post No. 35, when more than 100 new members were welcomed into the fellowship of the Legion.

Several hundred Legionnaires and members of the Auxiliary together with veterans of all United States

wars attended the annual Alfalfa county Legion picnic and Service Reunion at Carmen, Wednesday, June 4. The delegates to the district Auxiliary session at Carmen were special honor guests of the affair.

Golf tournaments, tennis matches, horseshoe and croquet contests, swimming matches, boating and baseball games featured the entertainment program. The Carmen Legion Post golf team won the silver loving cup given to the county champions, while Helena was presented the Loving cup for the baseball championship of Alfalfa county.

Mrs. J. P. Barrett, state president of the Auxiliary, in the absence of Mrs. M. L. Opperud, Blackwell, presided over the Auxiliary sessions. David S. Shackelford, managing editor of the Oklahoma Legionnaire represented the State Department of the Legion at this gathering of Service men and their friends.

State Commander Cody Fowler has been called to Florida on a business trip. The Commander expects to be absent from the State for the next three weeks.

The Virginia Department of the American Legion has inaugurated a movement to enroll every member of the American Legion of that state as qualified voters. Women of Virginia, it is pointed out, do not spurn the franchise. The Legion Nurse Post of Norfolk, Virginia, is enrolled one hundred percent in the qualified voter movement.

To bring to the attention of the public the need of funds to finance the Legion's Children's home at Independence, Kansas, the Department of Kansas Children's Welfare Committee is using a miniature poster in the form of a sticker to be placed on all Legion correspondence. The crest of the American Legion appears on the sticker from the center of which gazes a small child, challenging humanity. Below and above the crest of the Legion appear the words "For God and Country and our Children. Help Kansas Legionnaires build the first children's home."

National Commander John R. Quinn recently broke ground for the billet to be erected.

Toys are seldom bought in Portuguese East Africa because most of the children above the age of 10 are sent to the Union of South Africa or Europe for education.

## TEN NEW MEMBERS ON O. U. FACULTY

Selections Made to Instruct Students of State Institutions

NORMAN, June 12.—Ten appointments to the University of Oklahoma faculty, confirmed by the newly organized board of regents Tuesday, were announced by E. R. Kraettli, secretary of the board. One resignation also was announced.

Miss E. Marie Anderson, assistant professor dramatic art resigned. The appointments were as follows:

O. K. Weese, professor of zoology. Weese holds a doctor's degree from the University of Illinois, and formerly was head of the biology department of the University of New Mexico for three years. He is secretary-treasurer of the American Ecological society.

A. C. Shead, assistant professor of chemistry. Shead holds bachelor of science and master of science degrees from the university and a doctor's degree from Illinois. He formerly was chemist for the Oklahoma Geological survey. Shead will replace Cecil Langford, who will be away on leave of absence next year.

Joe E. Moose, assistant professor of chemistry. Moose holds a doctor's degree from Illinois. He will replace Lloyd Swearingen, who will be away on leave of absence next year.

Bruce Houston, assistant professor of chemistry. Houston holds a doctor's degree from Yale. He replaces Miss Margaret Bayburn who has resigned to accept a place in California.

J. Rea Butler, assistant professor of education. Butler holds a master's degree from Harvard.

W. S. Galpin, assistant professor of history. Galpin holds a doctor's

American Telephone & Telegraph Co. 139th Dividend

## MADISON GARDEN GREET WORKMEN

Crews of Workmen Busy With Plans For Receiving Democrat Hordes

(By the Associated Press)

NEW YORK, June 12.—The vast amphitheater of Madison Square Garden is reverberating these days with the clamor of an army of workmen and a corps of architects, who invaded the historic old structure June 1 to dress it up for the National Democratic Convention beginning June 24.

The Democratic party will be in possession of the Garden, until July 15 under the terms of the Executive Committee's lease with Tex Rickard. Day and night, from now until convention time, the metamorphosis of the picturesque place will continue. Then, immediately the delegates finish their nominating and adjourn, will begin the laborious process of converting the Garden into its old self again.

The whole job on which it originally was intended to spend about \$40,000, will cost approximately \$80,000, according to George F. Mara, director of convention arrangements. First, plans for alterations have been elaborated to include the installation of thousands of more comfortable seats than the Garden boasted, the erection of speakers' and press platforms which will cover the entire arena, the installation of new ventilating systems, and a thousand-and-one jobs that will add to the beauty and comfort of accommodations.

This probably will be the Garden's farewell bow to the public as an auditorium for political sessions on such a grand scale, for it recently was announced that it soon would be razed so that a towering commercial structure could be erected on the site.

To the Democratic convention delegate and visitor Madison Square Garden will present the appearance of a huge oval basket with flat bottom and terraced sides. The speakers' platform, with seats for 353 delegates, will push out from the long side of the oval facing south.

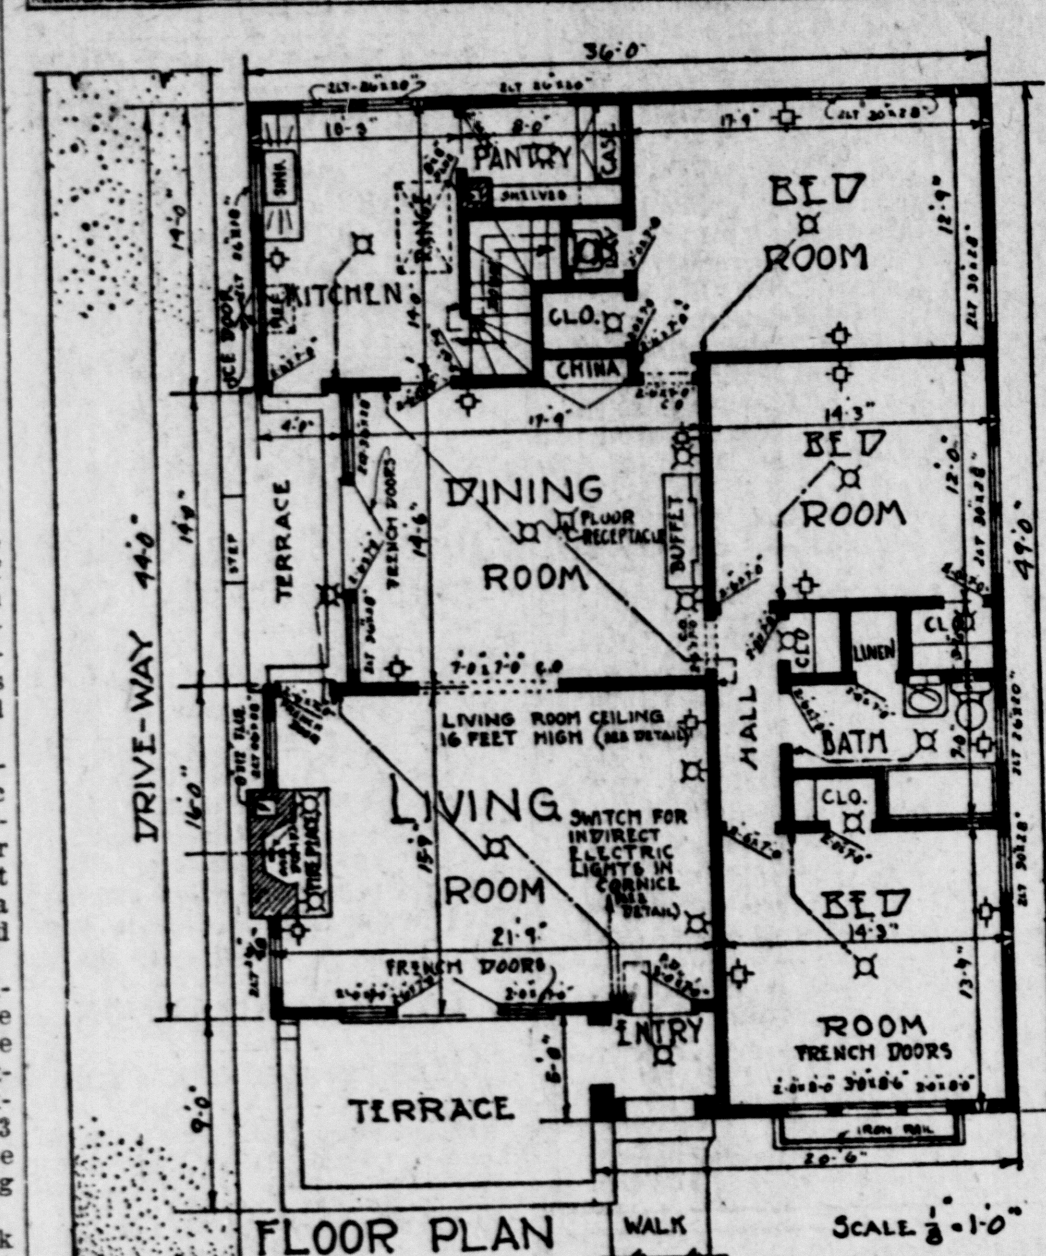

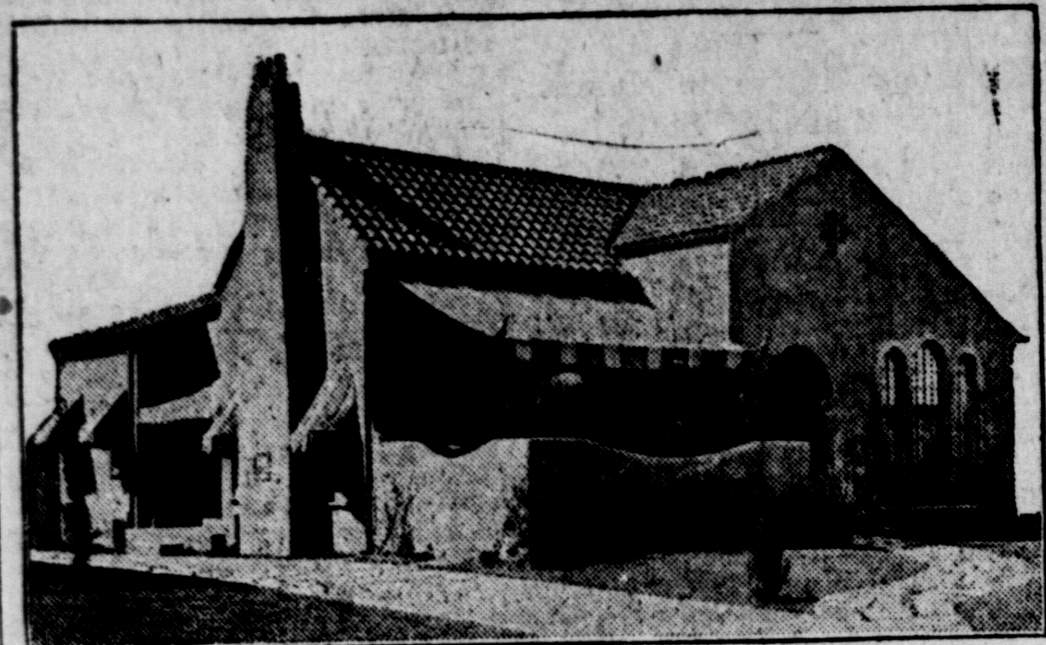

Platforms for the press will flank the speakers' stand, on a level 3 feet and 4 inches below it and extending right and left almost to the far ends of the oval. There will be seats for 95 news reporters and editors.

Then, directly in front of the speakers' stand, but 7 feet 3 inches below it, will be arrayed the ranks of delegates, with alternates flanking them to right and left at the same level.

Overhanging the bottom of the bowl will be the boxes, seating six to ten persons, which will be given over to those who have contributed to the party or local citizens' convention fund. Above them, will stretch tier after tier of seats, extending away up to the Garden roof for governors, congressmen, public officials, notables and party workers who fall within the "visitors" classification.

There will be 12,200 seats in all, arranged in sections with wide aisles which will make for easy exit and a minimum of work for ushers. New York City's share of the visitors' places will be 2,500.

## Spanish Type of House Is Distinctive and Comfortable

By WILLIAM A. RADFORD

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building, for the readers of this paper. On account of his wide experience as Editor, Author and Manufacturer, he is, without doubt, the highest authority on all these subjects. Address all inquiries to William A. Radford, No. 1327 Prairie avenue, Chicago, Ill., and only inclose two-cent stamp for reply.

"My home must be of an unusual type" is one of the conditions often made by those who are preparing to build a new home. A home of the modern renaissance of the Spanish type, such as is shown here, meets the desire for a residence of a distinctive and comfortable type.

Houses of this type owe their American origin to the Spanish pioneers who reproduced on the new continent the typical architecture of old Spain. Like Spain, America has extremes of climate which range from the heat of the southland to the rigors of the northern winters. This is a type of construction which can be made cool in summer and warm in winter.

The exterior is of a var-colored stucco, against which the brightly colored awnings stand out in bright contrast. The warm red of the tiled roof and the grass-green of the lawn and driveway are two other effective color touches.

The most striking feature of the interior is the living room, which has a chapel ceiling, 16 feet high, which makes the room most impressive. The French windows open on the semi-patio, which seems to be preferred in America to the inclosed patio typical of the real Spanish home.

The terrace off the dining room is an attractive feature, while the kitchen and pantry are arranged for convenience. The three bedrooms are well arranged and of adequate size.

The outside dimensions of the house are 36 by 40 feet.

Notice that the complete electrical wiring system is indicated in the floor plan.

## PHYSICIANS TOLD OF BIRTH CONTROL

New Medical Association Head Tells of Limitation Of Birth Needs

(By the Associated Press)

CHICAGO, June 11.—Limitation of population rather than increase "is the logical social ideal of the time," Dr. William A. Pusey, newly elected president of the American Medical Association, said in his inauguration address tonight at the association's convention.

"If no effort is made at birth control, nature will take charge of the situation by eliminating those least able to resist," Dr. Pusey asserted. "When this condition of saturation arrives, the humane plans of socialist altruism of today will be wrecked in the struggle by society for more existence."

"Man has now covered the desirable parts of the earth. Until now, men always have had new hospitable territory over which they could spread when population became too dense. Today there is no longer a frontier. The United States has in 120 years passed 100,000,000 population. Within the span of children now living, our population will reach 175,000,000.

The haphazardness of marriage and the possibility of public education on proper marital choice, in the absence of hope for the more scientific methods of eugenics, was stressed by Dr. Pusey.

Treating the sick and injured, described as the ancient responsibility of medicine, "rather than reforms by organizations, wholesale medical programs and government spoon-feeding," was held up as an ideal.

Whether the individual "is being too much coddled for his own initiative and the prevalent social endeavor is thus fostering a cult of incompetence," was a question the speaker raised in discussing measures such as the Sheppard-Towner Maternity Act. He characterized this act as an "expedient to meet temporary difficulties," and warned medical opinion to treat it "with prudent foresight," if the United States "does not want the medical socialism of the middle classes in Europe."

He commended President Coolidge for his "wise statesmanship in taking a definite stand against the federal support of a wide range of socialized activities."

## Movie Censorship Intricate Problem Declare Clubwomen

LOS ANGELES, June 12.—Censorship and control of the motion picture industry, the betterment of the quality of films and their increased use for educational purposes, these form intricate and perplexing problems, it was stated to the biennial convention of the General Federation of Women's Clubs here today by Mrs. Harry Lilly of New York, chairman of the federation's national division of motion pictures.

"A moot question is that of censorship," explained Mrs. Lilly. "It is taken for granted that there must be some protection from the exhibition of questionable films, but whether it shall be state control or federal or community pressure upon the local exhibitors, has evoked expressions of sincere differences of opinion. The ordinary citizen, busy with his daily duties cannot spend his time viewing pictures and would seem as if the responsibility for compelling productions to adhere to some fixed standards of morality ought to be lodged in the hands of capable persons who have no other claim upon their time and attention."

"Complaints about the filming of books whose popularity as 'best sellers' depends upon the exploitation of the so-called sex problem have been received and passed on to producers, but the pictures as a rule are free from the objectionable features of the books and our protests fall flat."

Mrs. Lilly said the federation's motion picture committee "started with a fresh enthusiasm which embraced the immediate solution of the motion picture problem, but as we progressed we became impressed with the intricacies of the situation, and began to recognize the fact that the tremendous investment of capital and time which provided this form of entertainment is not to be quickly affected."

"A study of the business side of motion pictures will give one some comprehension of the structure of the edifice against which we are pounding and the difficulty of finding the vulnerable point of attack. It will also show us the necessity of keeping the industry stable enough to attract capital, for without it improvement in the field will be impossible."

"It was appreciation of this that led our committee to seriously consider some action in regard to the banning of pictures because of the reports of questionable conduct of actors. After due deliberation we declared our endorsement of the policy of believing a person innocent until proven guilty of the offense charged or related to the offense in such a way as to make his appearance distasteful to right-thinking people."

"In addition to trying to hold suitable performances for children and to procure clean films for everybody by a policy of watchful cooperation, we would suggest a thorough study of all sides of the question of censorship. We must continue to

strive to make the playhouse decent physically, satisfying mentally, uplifting morally without sacrificing entertainment values, remembering that the protection of the children and young people is our duty."

Bokhara and Khiva Become States of Soviet Russia

ALLAHABAD, India. — Russian control of the former Khanate of Khiva and the Emirate of Bokhara is now firmly established, says the Turkestan correspondent of the Pioneer. The activities of the famous rebel leader, Jumaid Kha Khan are likely to be defeated during the next few weeks.

These two former vassal Khanates

of the Czarist Empire are now styled Khorezm and Bokhara People Soviet Republics, and are bound by treaty relationships with the Russian Soviet government.

The Turkestan Republic, with its capital at Tashkent, is officially described as an autonomous Socialist Soviet Republic.

## MASONIC BUILDING TO BE COMPLETED SOON

The reconditioning of the Masonic hall with the addition of another lodge room has moved steadily forward during the last two weeks and those in charge of the work believe that it will be ready for occupancy in two weeks.

When the Masonic building is complete it will be newly furnished in every detail and will be adequate to handle the affairs of the fraternity for some time to come.

The walls of the old lodge room are being re-plastered and painted while the new lodge room will be furnished to match the old room, where the fraternity has held sessions for a number of years.

The Blue Lodge, DeMolay, Rainbow and O. E. S. will probably use one of the halls, while the Council, Chapter and Commandry will take possession of the others.

The addition of a lodgeroom to the Masonic quarters here will answer a dire need in the progress of the fraternity in Ada and will greatly expedite the progress of candidates into the various degrees of Masonry.

Up to the time the expansion of the Masonic quarters here was started, Masonic orders were seriously handicapped by the conflicting dates they were scheduled to meet in the single lodge room.

## Post Expects to Be Out of Debt In Short Order

The Norman Howard post, American Legion expect to be cleared of its indebtedness before July 1, Robert S. Kerr, past commander, stated today.

Through recent profitable enterprises, the legion has received considerable funds in their treasury and will be able to cut off all outstanding indebtedness before the gates of the city are opened for the legion convention here.

Commander Kerr considers the closing of the gap between the post's outstanding debts as one of the most important progress steps for the year.

Following the payment of all debts, legionnaires will launch into a campaign to furnish their quarters in the Convention Hall for the reception of state veterans during

## Hallway Is Barometer of Personality of Homemaker

The hallway offers the visitor a first impression of your home. It is a sort of barometer by which the newcomer will unconsciously judge the personality of the homemaker.

Whether large or small the hallway should be inviting. It should be furnished in good taste, blending the informal with the formal. If the remainder of the house is decorated in the informal atmosphere of a cozy apartment or small home, the hall should offer this atmosphere with a touch of the formal about it. That note will make the intimate rooms more attractive by contrast.

There are so many different types of hallways, from the extremely small one to the "living hall," that it is not practical to offer specific methods of decorating. Yet every hallway, regardless of size, should be equipped with the essential accessories. A chair or bench for guests who may have to wait. A console table which provides a mirror by which incoming or departing guests can give a final survey of their appearance. A tray for letters should be provided and a plate for calling cards. An umbrella stand offers a splendid service.

When these details have been provided, the hallway can be "dressed" to suit the remainder of the home. Simplicity should be the keynote of the foyer as gaudy decorations are out of the pale of good taste.

## Make Contract Include Every Item Agreed Upon

The purchaser of property who takes for granted that certain improvements will be made is more than likely to be disappointed unless he holds a written agreement. It seems to be an almost universal habit for the seller to lose interest in the buyer immediately the transaction has been consummated and the money turned over, and through this condition it is very unwise to trust to oral agreements.

Investigation and survey of the abstract, county records, etc., are absolutely necessary, and the purchaser who buys without following out this line of procedure has himself to blame.

Great Britain is striving for the cotton supremacy of the world, so our boll weevils should be indicted

when it is discovered the property has been sold for taxes and the title clouded through this condition. Title guarantee or title insurance is the only safe means of protection. This guarantees against fraud in the transfer of the property, but does not guarantee verbal agreements as to repairs and changes. In this matter one must protect himself by writing in the contract the items agreed upon.

## Steel Basement Windows Practical and Artistic

The great superiority of high-grade steel windows for basement use is well recognized by all who have used them. This refers to the solid steel window, windows built of solid steel bars, not to hollow metal windows.

Solid steel windows are artistic and serviceable, permit of more light and air, and are unaffected by climate. They cannot swell or warp and require no refitting.

The steel window is now placed on the market in standard sizes, which permits of its use for residential purpose, and through this condition is generally being used in the better built homes for basement use, almost to the exclusion of all other types.

## Locate With Care

Location of the tree may determine its selection as well as soil and climate. If there is small space which may be devoted to the future development of the tree, says the American Tree association of Washington, it would not be satisfactory to plant one which will attain huge proportions. More than any other determining feature in tree selection is the purpose which the tree is to serve. For a 2-cent stamp for postage the association will send tree-planting suggestions. The planter should study trees growing in his immediate neighborhood and pick out the variety which will best serve his needs.

## Drawers in Kitchen

Under the dish closet in the kitchen is an excellent place to have drawers installed. If at least three of these drawers are no deeper than four or five inches, towels and dishcloths may be kept and found.

OKLAHOMA CITY—A red cross flag which flew over the first American first-aid post established in the Argonne forest by American medical units, during the early phase of the Meuse-Argonne offensive against the Germans in 1918, has been presented to the museum of the American legion in Oklahoma by Dr. W. H. McIlwain of Lone Oak, who was in charge of the post.

Its red cross has all but faded and shrapnel rents and bullet holes mar its smoothness, but it is intact. It will be preserved in a case with flags and banners at legion headquarters.

## Girls! Have Pretty Eyes

No girl is pretty if her eyes are red, strained or have dark rings. Simple camphor, witchhazel, etc., as mixed in Lavoptik eye wash, keeps eyes healthy, sparkling and vivacious. Dainty eye cup free. Gwin & Mays Drug Co.—Adv.

## Rollow's Filling Station Announces A New Service for Motorists

Making Complete Chassis Lubrication as Convient as Oil or Gasoline Service

Commencing today we offer motorists a complete ALEMITE or ZERK Lubricating service.

This makes chassis lubrication as simple and convenient as oil or gasoline service.

Just drive up to our station and in a little more time than it takes to supply your motor with oil, your chassis will be thoroughly and completely lubricated.

Nothing is more important to the service and life of your car than regular lubrication.

There are from 20 to 62 points on an automobile chassis that require lubrication regularly at 500-mile intervals. Neglect of lubrication is the cause of at least 80% of all repairs on moving parts

This new lubricating service instituted by us makes regular chassis lubrication as easy as keeping your motor supplied with oil.

This SERVICE is FREE, our only charge being for the actual oil or greases used on your car.
